Independent Auditor's Report

Mayor and Commissioners of the
City of Oak Hill, Tennessee
Oak Hill, Tennessee

I have audited the accompanying financial statements of the governmental activities, each major fund of the City of Oak Hill, Tennessee as of and for the year ended June 30, 2007, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Oak Hill's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted the audit in accordance with generally accepted auditing standards in the United States of America and standards applicable to financial reporting as contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that the audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund of the City of Oak Hill, Tennessee as of June 30, 2007, and the respective changes in financial position and the respective budgetary comparison for the General Fund and the Sanitation Fund for the year then ended, in conformity with generally accepted accounting principles in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated January 31, 2008 on the consideration of the City of Oak Hill's internal control over financial reporting and the tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of the testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of the audit.

Management's Discussion and Analysis and the Required Supplementary Information are not a required part of the financial statements but are supplementary information required by the Government Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and do not express an opinion on it.

The audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Oak Hill's basic financial statements. The Financial Schedules as listed in the table of contents are not a required part of the basic financial statements. The Financial Schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

John R Poole, CPA

January 31, 2008

CITY OF OAK HILL, TENNESSEE

Management's Discussion and Analysis

As management of the City of Oak Hill, Tennessee (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2007. The analysis focuses on significant financial position, budget changes and variances from the budget, and specific issues related to funds and the economic factors affecting the City. Management's Discussion and Analysis (MD&A) focuses on current year activities and resulting changes.

Financial Highlights:

The assets of the City of Oak Hill exceeded its liabilities at the close of the most recent fiscal year by \$7,271,723. Of this amount, \$6,709,848 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.

The government's total net assets increased by \$603,851 primarily as a result of increased interest and investment revenues of \$383,420 and an increase in state shared revenues of \$158,235. The City's investment portfolio return was much higher in the current year. As added information, the City has supplied a graphical analysis of its revenues and expenses for the last few years to assist in reading this analysis. Expenses were \$165,690 higher in the current year due to higher personnel and professional fees.

The City's governmental funds reported combined ending fund balances of \$6,709,848 an increase of \$248,013 in comparison to the prior year. The City had increased building permit revenues and higher interest and investment income and higher state shared revenues. The increase in revenues was offset by higher expenditures and capital assets purchases of \$374,225. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$6,709,848 or 800% of the total general fund expenditures.

Overview of the Financial Statements:

This discussion and analysis is intended to serve as an introduction to the City of Oak Hill's basic financial statements. The City's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Oak Hill include general government, personnel, finance, streets and public works. The government-wide financial statements can be found on pages 11-12 of this report.

Fund financial statements. A Fund is a grouping of related accounts that is used to maintain control over resources that have been segregated from specific activities or objectives. The City of Oak Hill, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City are governmental funds.

Governmental Funds. Governmental Funds are funds used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund which is considered to be a major fund.

The City of Oak Hill adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 14-17 of this report.

Notes to the financial statements. The notes provide additional information that essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18-23 of this report.

Financial Analysis of the Financial Statements ---Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Oak Hill, assets exceeded liabilities by \$7,271,723 at the close of the most recent fiscal year.

By far the largest portion of the City's assets reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure) less any related debt use to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Oak Hill's Net Assets

	2007 Governmental <u>Activities</u>	2006 Governmental <u>Activities</u>
Current and other assets	\$ 6,771,154	6,520,988
Capital assets	<u>561,875</u>	<u>214,537</u>
Total assets	7,333,029	6,735,525
Long-term liabilities	0	8,500
Other liabilities	<u>61,306</u>	<u>59,153</u>
Total liabilities	61,306	67,653
Net assets:		
Invested in capital assets net of debt	561,875	206,037
Unrestricted	<u>6,709,848</u>	<u>6,461,835</u>
Total net assets	\$ 7,271,723	6,667,872

At the end to the current fiscal year, the City is able to report positive balances in all categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior year.

Financial Analysis of the Financial Statements

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the City of Oak Hill's governmental funds is to provide information on near-term inflows, outflows and balances of resources. Such information is useful in assessing the City's financing requirements in particular, unreserved fund balance may serve as a useful measure to a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$6,709,848. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 800% of total general fund expenditures.

Government-wide comparison of revenues of expenses

	2007 Governmental <u>Activities</u>	2006 Governmental <u>Activities</u>	Change Between <u>Years</u>
Revenues:			
Program revenues:			
Charges for services	189,776	160,374	29,402
Operating grants and contributions	230,660	224,771	5,889
General revenues:			
Sales taxes	341,368	299,186	42,182
Other state shared taxes	582,546	466,493	116,053
Interest and investment income	417,053	33,633	383,420
Other	5,274	2,698	2,576
Total revenues	<u>1,766,677</u>	<u>1,187,155</u>	<u>579,522</u>
Expenses:			
General government	540,920	412,351	128,569
Highways and streets	358,911	310,818	48,093
Sanitation	262,995	273,967	(10,972)
Total expenses	<u>1,162,826</u>	<u>997,136</u>	<u>165,690</u>
Change in net assets	<u>603,851</u>	<u>190,019</u>	<u>413,832</u>

General Fund Budgetary Highlights

The City exceeded its General Fund- General Government departmental budget during the year due to higher personnel expense and city newspaper expense. The General Fund – Street and Highway departmental budget was exceeded due to higher paving costs than expected. There were no amendments made during the year.

Capital Assets

The City of Oak Hill's investment in capital assets from its governmental activities at June 30, 2007, amounts to \$561,875 (net or accumulated depreciation). This investment in capital assets is in buildings, infrastructure, machinery and equipment.

City of Oak Hill's Capital Assets

	2007	2006
	Governmental	Governmental
	<u>Activities</u>	<u>Activities</u>
Buildings	\$ 95,668	95,668
Infrastructure	545,492	171,267
Equipment	<u>26,862</u>	<u>26,862</u>
Less accumulated depreciation	(106,147)	(79,260)
Net Capital Assets	<u>\$ 561,875</u>	<u>214,537</u>

Additional information on the City of Oak Hill's capital assets can be found in the notes to the financial statements section of this report.

Economic Factors and Next Year's Budget and Rates

In the 2007-2008 budget, General fund revenues are budgeted to increase from the 2006-2007 budget year primarily due to increases in local permit revenue and an increase in the state shared revenues .

All of these factors were considered in preparing the City's budget for the 2007-2008 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the City of Oak Hill, Tennessee's finances for all those with an interest in the government's finances. **NOTES TO THE
FINANCIAL STATEMENTS**

CITY OF OAK HILL, TENNESSEE

Notes to Financial Statements

June 30, 2007

(1) Summary of Significant Accounting Policies

The City of Oak Hill, Tennessee, was incorporated under the Private Act of the Tennessee General Assembly. The City provides the following services, as authorized by its charter and duly passed ordinances: streets, public improvements, and general administrative services. The accounting policies of the City of Oak Hill, Tennessee conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies.

Reporting Entity:

Governmental Accounting Standards Board (GASB) Statement Number 14, "The Financial Reporting Entity" requires that financial statements present the reporting entity which consists of the primary government and any "Component Unit" organizations for which the primary government is financially accountable and any other "Component Unit" organizations for which the nature and significance of their relationship with the primary government are such that exclusion, could cause the City's financial statements to be misleading. There were no component units requiring blended or discrete presentation under the requirements of GASB Statement Number 14.

Accounting Pronouncements:

Effective July 1, 2003 the City adopted GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis for State and Local Governments: Omnibus, an amendment of GASB Statements No. 21 and 34, Statement No. 38, Certain Financial Statement Note Disclosures and Interpretation No. 6, Recognition and measurement of Certain Liabilities and Expenditures in Government Fund Financial Statements. The requirements of these statements represent a significant change in the financial reporting model used by the City. The financial statements now include government-wide financial statements prepared on the accrual basis of accounting and the economic measurement focus for all funds. The fund financial statements present information for individual major funds rather than by fund type. Other significant changes include the reporting of capital assets, infrastructure and depreciation, the elimination of account groups, and the inclusion of management's discussion and analysis.

Government -Wide and Fund Financial Statements

The Government-wide financial statements, the statement of net assets and the statement of changes in net assets, report information on all of the nonfiduciary activities of the primary government and its component units. For the most part the effect of the interfund activity has been removed from these statements. Government activities which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (i) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and (ii) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

CITY OF OAK HILL, TENNESSEE

Notes to Financial Statements

June 30, 2007

(1) Summary of Significant Accounting Policies, Continued

Separate financial statements are provided for governmental funds. Major individual governmental funds and major funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund revenues are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they become both measurable and collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers most governmental revenues as available if received within 60 days of years end. Expenditures are recorded generally when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

State shared revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period using the criteria specified in the paragraph above. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major funds:

General Fund - The General Fund is the general operating fund of the City. It is used to account for all financial resources of the general government except those required to be accounted for in another fund.

Sanitation Fund - To account for the activity of the City's garbage collection activities.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of savings accounts, certificates of deposit with original maturities three months or less and amounts held by the State Local Government Investment Pool.

Receivables and Payables

Activity between funds that are representative of lending/ borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due from/ due to other funds" (i.e. the current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available resources.

CITY OF OAK HILL, TENNESSEE

Notes to Financial Statements

June 30, 2007

(1) Summary of Significant Accounting Policies, Continued

Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets consisting of certain improvements other than buildings, including roads, bridges, streets and sidewalks, and drainage systems are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an individual cost of \$5,000 and an estimated useful life in excess of three years. All fixed assets are valued at historical cost or estimated useful life in excess of three years. All fixed assets are valued at historical cost or estimated historical cost, if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Depreciation is provided over the estimated useful lives using the straight line method.

The estimated useful lives are as follows:

Infrastructure	30 years
Buildings	30 years
Furniture and Equipment	5-10 years

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental fund.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balances for amounts that are not available for appropriation or are legally restricted by outside parties for a specific purpose.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Credit Risk

Financial instruments that potentially subject the City to significant concentrations of credit risk consist principally of cash and accounts receivable. The City places its cash with federally-insured financial institutions, institutions participating in the State collateral pool. With respect to accounts receivable, credit risk is limited to two governmental agencies, the State of Tennessee and the City of Nashville, Tennessee, and as such the credit is deemed not significant.

CITY OF OAK HILL, TENNESSEE

Notes to Financial Statements

June 30, 2007

(1) Summary of Significant Accounting Policies, Continued

Deferred Revenue

Deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the occurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to resources, the deferred revenue is removed from the balance sheet and revenue is recognized.

Restricted Funds

It is the City's policy to use restricted funds when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Formal budgets are adopted and approved by Council vote on an annual basis for all the Funds. These budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- b. The City Council approves, by ordinance, total budget appropriations by department only. The Mayor is authorized to transfer budget amounts between line items within each department; however, any revisions that alter the total appropriations of any fund must be approved by the City.
- c. The budget amounts shown in the financial statements are the final authorized amounts as amended during the year.

During the year the City exceeded the following departmental budgets:

	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
General Fund:			
General Government	\$ 415,542	544,048	128,506
Streets and Highways	\$ 391,500	711,621	320,121

(2) Cash and Cash Equivalents

The City is authorized to invest funds in Federal treasury bills and notes, State of Tennessee Local Government Investment Pool and financial institution demand deposit accounts and certificates of deposit. During the year, the City invested funds that were not immediately needed in certificates of deposits and savings accounts. The City has deposit policies to minimize custodial credit risks. Deposits in financial institutions are required by State Statute to be secured and collateralized by the institutions.

The collateral must meet certain requirements and be deposited in an escrow account in a second bank for the benefit of the City and must total a minimum 105% of the value of the deposits placed in the institutions less the amount protected by federal depository insurance. The City's deposits with financial institutions are fully insured or collateralized by securities held in the government's name.

CITY OF OAK HILL, TENNESSEE

Notes to Financial Statements

June 30, 2007

(3) Investments

The City has investments of \$5,729,365 with Suntrust. These investments include Certificate of deposits (\$1,760,701) and Federal government bonds (\$3,968,664). These investments must be collateralized and must meet certain requirements and be deposited in an escrow account in a second bank for the benefit of the City and must total a minimum 105% of the value of the deposits placed in the institutions less the amount protected by federal depository insurance. The City's investment's with financial institutions are invested in Certificate of deposits which are all insured by FDIC and U.S. government securities with are guaranteed by the United States government.

The Carrying value of all investments approximates the market value.

(4) Accounts Receivable

Accounts receivable at June 30, 2007, consist of the following:

<u>Fund</u>	<u>Other Government</u>	<u>Total</u>
General Fund	\$ <u>713,640</u>	<u>713,640</u>

(5) Capital Assets

A summary of changes in capital assets as presented in the governmental activities column of the government-wide financial statement is as follows: :

	<u>Balance July 1, 2006</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance June 30, 2007</u>
Building	\$ 95,668	-	-	95,668
Infrastructure	171,267	374,225	-	545,492
Equipment	26,862	-	-	26,862
Total	<u>\$ 293,797</u>	<u>374,225</u>	<u>-</u>	<u>668,022</u>
Accumulated depreciation	<u>79,260</u>			<u>106,147</u>
Capital Assets - net	<u>214,537</u>			<u>561,875</u>

Depreciation expense was charged to functions/programs of the primary government as follows:

General Fund:	
General Government	\$ 5,372
Highways and streets	21,515
Total	<u>26,887</u>

All assets are being depreciated.

CITY OF OAK HILL, TENNESSEE

Notes to Financial Statements, Continued

(6) Risk Management

The City of Oak Hill is exposed to various risks to general liability and property and casualty losses. The City has decided it is more economically feasible to be in a public entity risk pool as opposed to purchasing commercial insurance for general liability and property and casualty coverage. The City participates in the TML Insurance Pool which is a public entity risk pool established by the Tennessee Municipal League, and association of member municipalities. The City pays an annual premium to the TML for its general liability and property and casualty insurance coverage. The pool reinsures through commercial insurance companies. The City has not had claims in excess of insurance coverage during the last three years.

(7) Capital Lease

During a previous year the City purchased a truck which was financed with a capital lease. The lease provides for three annual three payments of \$ 9,833. The City made the last payment in 2007.

(8) Retirement Plan

The City opened a Governmental 457B retirement plan for all of its full-time employees through the City of Oak Hill Retirement Plan, a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are eligible to participate from the date of employment. The plan allows employees to contribute up to a maximum of \$15,000. The City's contribution for each employee is to match dollar for dollar up to 6% of the employee's salary.

(9) Commitments and Contingencies

Grants:

Amounts received from Grantor agencies are subject to audit and adjustment by Grantor agencies, principally the State of Tennessee and the Federal government. Any disallowed claims including amounts already collected, could become a liability of the applicable fund.

SUPPLEMENTAL INFORMATION

Financial schedules are used to demonstrate finance related legal and contractual compliance, provide details of data summarized in the financial statements and present other information deemed useful.

(615) 822-4177

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND OTHER
MATTERS AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Mayor and Board of Commissioners
City of Oak Hill, Tennessee
Oak Hill, Tennessee

I have audited the financial statements of the governmental activities, each major fund of the City of Oak Hill, Tennessee's financial statements as of and for the year ended June 30, 2007, and have issued a report thereon dated January 31, 2008. I conducted the audit in accordance with generally accepted auditing standards in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Oak Hill's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of the financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of the audit and, accordingly, I do not express such an opinion. The results of the tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing the audit, I considered the City of Oak Hill's internal control over financial reporting as a basis for designing the auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Oak Hill's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the City's internal control over financial reporting.

My consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, I identified a deficiency in internal control over financial reporting that I consider to be a significant deficiency, as defined below.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the organization's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles, such that there is more than a remote likelihood that a misstatement of the organization's financial statements that is more than inconsequential will not be prevented or detected by the organization's internal control. I consider the deficiency in internal control over financial reporting described on the next page to be a significant deficiency.

Prior Year:

2002-1 Separation of Duties

Due to the limited number of personnel employed by the City of Oak Hill, several functions, which ideally should be performed by different individuals, are regularly performed by one or two persons. I recommend that the City strengthen its internal control in cash receipts, cash disbursements, and reconciliation of cash.

Disposition:

Due to the size of the office, a complete separation of duties is not possible. However we are continuing to monitor office responsibilities and segregate duties as needed.

The City of Oak Hill's response to the finding identified in the audit is described above. I did not audit the Management Response and, accordingly, I express no opinion on it.

I noted certain matters that I reported to management of the City of Oak Hill in a separate letter dated January 31, 2008.

This report is intended solely for the information and use of the audit committee, management, and State Comptrollers Office and is not intended to be and should not be used by anyone other than these specified parties.

John R Poole, CPA

January 31, 2008
